AAC & Adults

Modeling for Learning Language

Talk with me, not about me

Ask me open-ended questions
(A Yes/No question gets a Yes/No Answer)

Listen and respond to what I say & do
(Even if you think it was an mistake)

Keep believing in my ability to learn

Wait for me to figure out what to say

I t might take me time and that's fine

Teach me Core Vocabulary & words for what I like!
(so I can say something new)

Have my device out and available

Model words and how to find them!

Engage with me in conversation
(Don't just ask me what I want)

My thoughts matter. Talk with me.

Kathryn Helland, M.S., CCC-SLP
